Selection Process

A selection panel is formed and they will work alongside with the coaching staff in the selection process. The tryout will consist of evaluating the players in 6 categories: Passing/Catching, Looseballs, Shooting, 1v1 skills, Game Sense, Effort. The selection panel and coaching staff will evaluate players according to the 6 categories and they will work together closely in selecting the final squad. Head coach will personally call each player to advise them of their selection and to which program they will be continuing.

Squad Numbers:

The coaching staff and selection panel will select a group of 30 - 35 players to continue in the U20 program. The remaining players will be invited to continue in the HPP program contingent on their chances to play lacrosse in other areas and their desire to continue in the HPP program. The number will range between 30 and 35 based on the competitiveness of the players between the 30th and 35th positions. The coaching staff will not release a player in that group unless we are sure their development path is fully compared over time against the other players in that group.
